INDICATIONS POINT TO FACT
THAT ALL ROBBERIES MAY
HAVE BEEN DONE BY THE
SAME PERSONS.

Three robberies within a week, in
which valuable jewelry has been tak-
en from private residences, and in
which all jobs were done in prac-
tically the same manner, each time
while the owners of the property
were at supper, give strong indica-
tions that the Florida East Coast is,
as has been, harboring one or a
gang of the smoothest sneak thieves
which has ever operated in this sec-
tion of the country.

The latest robbery reported was
at the home of Mrs. Roger W. Whit-
field in Seabreeze, when, it is al-
leged, jewelry to the amount of \$5,-
000 to \$7,000 was taken from rooms
on the second floor while the family
was at supper or soon after. The
robbery was committed Tuesday
night.

Monday night the home of J. D.
Price, manager of the Hotel Or-
mond, was entered in the same man-
ner and jewelry to the amount of ap-
proximately \$500 was taken from
guest rooms during the supper
hour or soon after.

Last week the home of E. H.
Hotchkiss at Daytona Beach was en-
tered during the early evening and
jewelry to the value of near \$1,000
carried away.

No clues have been left as to the
perpetrators of the robberies, but
the fact that all were committed in
practically the same manner and
about the same time in the evening
indicates the work was done by ex-
perienced burglars and after careful
study of the premises and conditions
where the burglaries were committed.
Officers in Daytona Beach, Sea-
breeze and Ormond are working on
the robberies and the Daytona offi-
cers are lending what assistance
they can in the matter. From evi-
dence obtained from rumors about the
streets it is believed one or
more women are connected with the
gang and the gang may be composed
entirely of women, who have been on
the East Coast for some time study-
ing conditions and situations and fi-
nally come to the conclusion this is
the proper time to strike.

It is said that evidences were found
at the Hotchkiss residence after the
robbery there last week that a wom-
an had been in the house by the
finding of a piece of dress goods on
the stairs which was unlike any dress
goods worn by members of the house-
hold. It is also said that two strange
women called at the home a few days
previous to the robbery, and it is
now believed the visit of these wom-
en was made for the purpose of "siz-
ing up" the home.

It is said that a woman's tracks
were plainly shown in the yard at
the Whitfield residence the next
morning after the robbery, indicat-
ing that a woman was connected with
the robbery.

The robbery at the home of Mrs.
Whitfield is said to have been com-
mitted sometime between the hours
of 7:30 o'clock and 9 o'clock, prob-

ably during the time the family was
at supper. Entrance is supposed to
have been gained through an upstairs
window, which had been carelessly
left unlocked, and which was found
open.

The robbery was discovered by Mrs.
Whitfield when she went to her
room to retire about 9 o'clock in
the evening. Evidences of the room
having been rifled were so plain
an investigation was started by the
woman with the result that she dis-
covered that a number of pieces of
valuable jewelry were missing.

Efforts of the Daily News to get
a statement from Mrs. Whitfield or
members of the household Wednesday
morning were unsuccessful, but it is
understood the missing jewelry in-
cludes one pearl brooch valued at
\$3,500 and a diamond piece valued
at \$1,100, besides a number of others
of less value, but which collectively
bring the total value up to between
\$5,000 and \$7,000.

It is said that no strangers have
been seen about the premises re-
cently and no noises were heard in
the house during the evening, and
that no clue was left which might
lead to the identity of the robbers.

The robbery of the home of J. D.
Price at Ormond Monday evening
was supposed to have been commit-
ted in a little different manner. It
is the theory of Mr. Price that the
robber watched his opportunity and
effected entrance by the front door
and remained in hiding until the
family had sat down to the evening
meal. The home of Mr. Price was
evidently burglarized during the time
the family was at supper.

The robbers carried away two val-
uable watches, a diamond ring, three
pearl pins, one diamond pin and a
number of other pieces of valuable
jewelry, the total amount of which
will reach about \$500. Evidences of
the house having been entered were
discovered when members of the
family went upstairs about 8:30 o'-
clock in the evening and an open
window showed plainly the means of
exit.

Working on the theory that the
robberies have all been committed
by the same gang and that the mem-
bers of the gang have been here for
some time waiting for the arrival of
some of the wealthy winter resi-
dents and tourists it is possible a
number of smaller robberies early in
the season may be the work of the
same gang. Some time ago the resi-
dence of W. S. Snead was robbed
and no trace of either the perpetra-
tors of the robbery or the missing
jewelry has been found. Following
this came the robbery of the Maley
home in Daytona Beach.

That other robberies may have
been committed by the gang before
coming to this section of the East
Coast country may be surmised by
the fact that a number of similar
burglaries have been reported in
other cities.

Recently G. F. Parker reported the
finding of a valuable diamond brooch
on the street in this city and up to
this time has been unable to locate
an owner for the piece of jewelry.
The brooch was seen by Mr. Park-
er as he was walking along the side-
walk. It had either been dropped or
thrown into the grass beside the
walk and was almost hidden from
view. From the fact that the grass
had grown up through the open plac-
es in the brooch and had grown over
the piece as a whole indicates the
brooch had been lying in the grass
for some time. The brooch may
have been lost by the rightful own-
er or it may have been dropped into
the grass by some thief who feared
detection.

IMPROVEMENTS ARE MADE
AT TELEPHONE OFFICE

A new switchboard is being in-
stalled in the telephone office to
make room for the additional tele-
phones which have recently been in-
stalled. The increasing business has
made it impossible for one operator
to attend to all the calls and another
operator will be added as soon as
the improvements have been made.

CAPTURED
BY FARMER.**

**SHERIFF AT ST. AUGUSTINE
NOW HAS ALL BUT TWO MEN.**

**NEGRO WILLIAMS, HELD FOR
MURDER, AND THREE OTHERS
OF THE GANG CAUGHT BY THE
FARMER AND HIS SONS.**

ST. AUGUSTINE, March 1 —
Sheriff Perry now has all but two
of the prisoners who escaped last
Friday from the county jail when
they overpowered Jailor Walker.
Monday night Deputy Sheriff Broad-
nax of Palm Valley, arrived in the
city with Dan Williams, the negro
held for murder, and three others in
his custody. They were captured
by Mr. Oestrader who resides near
the Mickler place on the Duval and
St. Johns county line. The pri-
soners were nearly starved, they having
had nothing to eat in a long time.

Mr. Oestrader and his sons had
kept a careful lookout for the ne-
groes and yesterday while digging
palms in the hammock they dis-
covered them. Sheriff Perry had a re-
ward of \$50 out for the capture of
Williams and \$25 each for the others
and this morning he sent Mr.
Oestrader the total reward of \$125.

Besides Williams the other ne-
groes captured are Henry Sanders,
held for grand larceny; Chas. Dan-
iels, held for selling liquor without
a license, and George Smith, held for
entering a house without breaking.

Will Childs and James Porter are
still at large. A reward of \$25 each
for their reward is offered by
Sheriff Perry.

**THE STORY OF A
PHILADELPHIA DOLLAR.**

Twenty-eight years ago a man in
Philadelphia who had a savings ac-
count withdrew his balance before
moving to New York, leaving a dol-
lar to hold his look. There it lay,
but not sleeping—even in Philadel-
phia. Three years ago the owner re-
ceived notice from the bank that, as
his account was not active, it would
better be closed up. He shuffled
his willingness to have it taken off
the books and, upon surrender of his
pass book received a check for \$450,
which represented interest at the
rate of 350 per cent. It is commonly
demonstrated that a dollar at ordi-
nary savings bank interest doubles in
about twenty years, but in this case
the account was nearly quadrupled
in twenty-five years.

IS COMING

**COUNTY JUDGE TO BE HERE
TO COLLECT ALL LICENSES.**

**MCCRORY WILL BE AT FITZGER-
ALD & OATES OFFICE TOMOR-
ROW AFTERNOON AND FRIDAY
FORENOON.**

County Judge McCrory will be in
Daytona Thursday and will be in
the office of Attorneys Fitzgerald &
Oates after 4 o'clock in the afternoon
and during the forenoon Friday.
While here Judge McCrory will is-
sue state and county licenses to
the hotels and business enterprises
in this part of the country which
have not already secured these per-
mits.

Recently Judge McCrory announced
he would be in Daytona Monday for
the purpose of collecting these li-
censes, but was unable to leave his
office in the courthouse at that time.
He announces he will sure be here
tomorrow.

The records in the office of the
county judge show that a large num-
ber of hotels and business enterpris-
es in this vicinity have not yet paid
their state and county licenses and
Judge McCrory is coming here to
make these collections merely as an
accommodation for those who have
not yet made these payments. The
list of those who do not take out
their licenses at this time will be
placed in the hands of the county
solicitor.

**NEGRO LAD IS ARRESTED
FOR GENERAL CUSSINESS.**

**MASON JONES OF MIDWAY
LOCKED UP IN CITY JAIL ON
CHARGE OF INCORRIGIBILITY
MADE BY MOTHER.**

Mason Jones, a negro lad 13 years
age, stepson of George Ford, a shoe-
maker of Midway, was arrested Wed-
nesday afternoon by Marshal Go-
nion on a charge of incorrigibility in-
ferred by the mother of the boy.

The boy is a general all around
bad character and has caused all
kinds of trouble for his parents,
who have made every effort to put
up with his general cuSSiness until
patience has ceased to be a virtue
and the parents now want him
sent to the reform school or locked
up.

One of the favorite pastimes for
the lad has been "cussing out" his
mother and step-father and every-
body with whom he comes in con-
tact. Just by way of diversion he
proceeded the other night to break
a window or two in his home.

When arrested by Marshal Go-
nion the negro lad put up a fight that
compelled the officer of the law to
extend himself, but the boy was fi-
nally subdued and brought to the city
jail. He will probably be arraigned
on some charge that will take him
before the criminal court.

**WIRES DOWN;
NO SERVICE
FROM NORTH.**

**CITY IS ENTIRELY ISOLATED
FROM REST OF THE WORLD.**

**DAILY NEWS WITHOUT TELE-
GRAPH REPORT AND IMPORT-
ANT MESSAGES IN AND OUT
ARE NOT SENT.**

The city of Daytona has been prac-
tically cut off from the rest of the
world because of crippled wire ser-
vice today and not a word was re-
ceived at the local office of the West-
ern Union from the north from 9:50
o'clock this forenoon to 4 o'clock
this afternoon.

The daily telegraph report usual-
ly received by the Daily News was
not received today because of this
fact, the most of the report usually
coming after 10 o'clock in the fore-
noon.

Important telegrams have been
held up here the greater part of the
day awaiting an opportunity for
transmission and Daytona business
men and visitors who were expecting
important messages could do nothing
but wait and hope.

Efforts to locate the trouble by em-
ployees of the Western Union have
been unavailing beyond the fact that
the wires went down somewhere
north of Ormond just before 10 o'-
clock.

The fact that the least accident to
the two wires leading into Daytona
cuts this city off from the rest of
the world shows plainly the ineffi-
ciency of the wire service of the
Western Union. Even the railroad
wires are down to the north and no
reports have been received from that
direction at the F. E. C. depo dur-
ing the day.

**DAYTONA LODGE TO CHOOSE

DURING COMING YEAR AT
NEXT MEETING.**

The annual meeting of the Day-
tona lodge of Elks will be held next
Tuesday evening and at that time
the men to occupy the chairs during
the coming year will be chosen by
the members. Notice of the annual
election next week was given at the
regular meeting of the lodge Tues-
day evening.

The meeting Tuesday night was
one of the best of the winter sea-
son and three candidates were in-
duced by the local lodge. Following
the lodge meeting the members and
visitors enjoyed a social session.

Notices have been sent out for
the annual meeting of the Florida
East Coast Automobile Association,
which will be held next Monday eve-
ning at the Elks club. Officers for
the coming year will be elected at
that time.

One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, with hampers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon the beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with white draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptomeria forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surfaced road, the scenic highway of the East Coast. The town is located on the Halifax River, and is connected with the peninsula opposite by a bridge.

The town is well laid out and has many pretty homes. A large number of tourists and winter residents make Port Orange a winter headquarters, one of the several attractions being the excellent fishing.

A short distance west of Port Orange are the remains of the old Dunlawton sugar mill, a place that is visited every year by hundreds of tourists. One time all the country west of Port Orange, surrounding the old mill, was a vast indigo and sugar cane plantation. The mill was operated extensively in those early days but has been in disuse for forty or fifty years.

A very interesting drive from Daytona is by ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through the principal street of Port Orange to the ruins of the sugar mill, returning to Daytona by the road on the mainland.

MUCH INTEREST IS SHOWN IN AVIATION EXHIBITIONS.

MANY INQUIRIES ARE BEING RECEIVED AS TO ACCOMMODATIONS FROM PERSONS IN VARIOUS PARTS OF STATE.

Already inquiries are being received as to accommodations in Daytona the last week in March, when Aviator J. A. D. McCurdy will give his series of exhibition flights here. Indications are there will be many people from all parts of the state in Daytona at that time, grasping the opportunity to make a visit to the prettiest winter resort in the world and watch the sensational flights through the air of the pioneer among bird men.

McCurdy is looking forward with anticipation to his flights here because it was on the Daytona beach that Glenn H. Curtiss, whose biplane will be used by McCurdy, made his mile record with a motorcycle, and this record has stood since as the world's record.

Excellent Hunting and Fishing
NEW SMYRNA, FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

IN A ROMAN CAB.

A Party of Disgusted Americans and an Overgrateful Driver.

In Mr. Howells' "Roman Holidays and Others" is this delightful story of an adventure in a Roman cab:

In returning from the Pincio the only cab we had been able to get was the lost left of the very worst cabs in Rome, and we had bidden the driver wait for us at the church steps, not without some hope that he would play us false. But there he was, true to his word, with such disciplined fidelity as that of the Roman sentinels who used to die at their posts, and we mounted to ours with the muted prayer that we at least might reach home alive.

This did not seem probable when the driver whipped up his horse. It appeared to have aged and sickened while we were in the church, although we had thought it looked as bad as could be before, and it lurched alarmingly from side to side, recovering itself with a plunge of its heavy head away from the side in which its body was sinking.

The driver swayed on his box, having fallen equally decrepit, in spite of the restoratives he seemed to have applied for his years and infirmities. His clothes had put on some such effect of extreme decay as those of Rip Van Winkle in the third act; there was danger that he would fall on top of his falling horse and that their raiment would mingle in one scandalous ruin.

Via Sistina had never been so full of people before; never before had it been so long to that point where we were to turn out of it into the friendly obscurity of the little cross street which would bring us to our hotel. We could not consent to arrive in that form; we made the driver stop, and we got out and began overpaying him to release us.

But the more generously he overpaid him the more nobly he insisted upon serving us to our door.

At last, by such a lavish expenditure as ought richly to provide for the few remaining years of himself and his horse, we prevailed with him to let us go and reached our hotel glad, almost proud, to arrive on foot.

The Festival of Minerva.

The most notable festival at Athens was in honor of Minerva. All classes of citizens on this day marched in procession. The oldest went first, then the young men, the children, the young women, the matrons and the people of the lower orders. The most prominent object in the parade was a ship propelled by hidden machinery and bearing at its masthead the sacred banner of the goddess.

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

SEABREEZE and **DAYTONA BEACH**, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rivalry.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilists some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

W. M. HANKINS THE PRISONER TO BE TRIED AT MOCK TRIAL.

POPULAR DRUGGIST TO BE ACCUSED OF TRIFLING WITH AFFECTIONS OF PRETTY YOUNG LADY.

Since the announcement was made in these columns that a big mock court trial was to be held under the auspices of the civic department of the Palmetto club, in the Auditorium, Monday evening, March 6, there has been great curiosity to know "who 'tis."

The secret is going to be let out right here and now, and the public can begin to look forward to the merry event.

No wonder there is deep interest when so important a question is at stake as to whether the affections of fair woman shall be trifled with, her tender heart rent asunder and her future blighted with no redress whatever.

That this mock court trial will be no light affair will be clearly seen and here comes the list of participants:

His honor, the judge, will be W. S. Snead, Esq.; clerk, W. C. Smith; court officer, Geo. N. Chamberlain; court crier, C. M. Smith; plaintiff's attorney, Col. A. V. Newton of Worcester, Mass. defendant's attorney, H. C. F. Dohm.

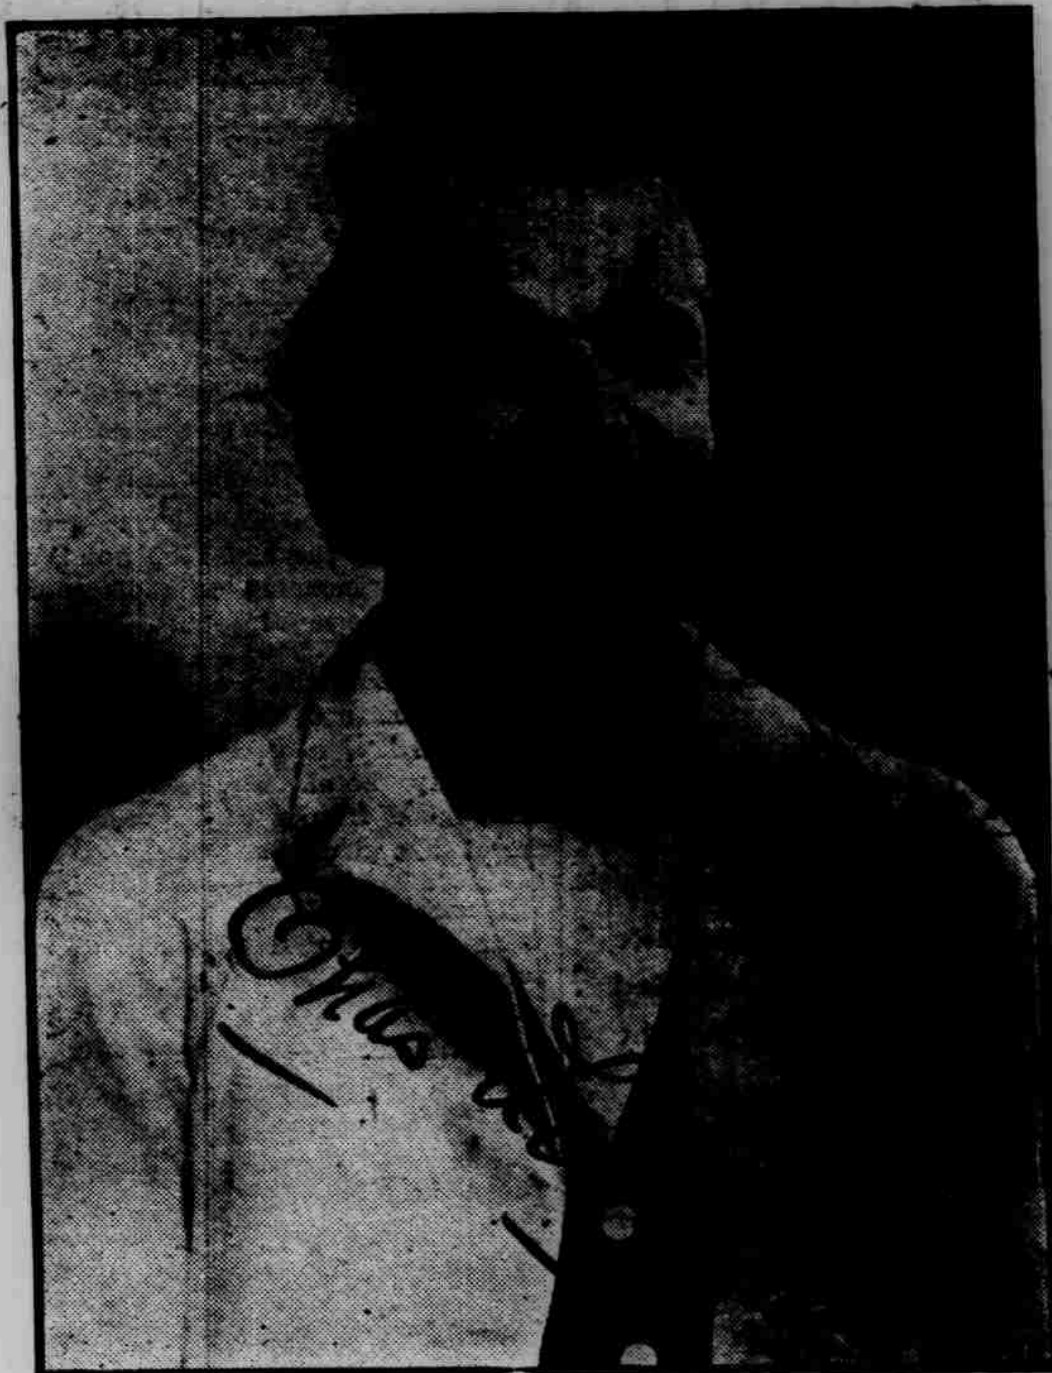

The broken-hearted plaintiff in this highly interesting breach of promise will be Miss Mabel Snider, and the luckless defendant is W. M. Hankins.

The witnesses will be Miss Jessie Chamberlin, Miss Eva Jackson, Dr. W. A. Gove, E. T. Conrad, D. S. Simonds.

The jury to be empaneled if the lawyers do not kill each other before the trial begins, will be as follows: Prof. J. L. Wright, Laurence Thompson, W. Roxby, F. M. Rowe, C. E. Gardiner, J. B. Garrison, E. L. Gunn, Geo. H. Clark, Marcus H. Rogers, John Price, Geo. F. Smith, and F. N. Conrad.

Altogether this Mock Court Trial promises to be one of the events of the season, both in the interest attached to it and in the crowd that will attend.

FUN! Let No Innocent Man Escape at the Great Mock Court Trial

Under the auspices of the Civic Dept. of the PALMETTO CLUB in the Auditorium of School Building, on
Monday Evening, March 6

One of our most respected citizens will be charged with breach of promise. Regular court rules. Startling developments. Ludicrous situations. Local hits. An evening of refined fun.

PRICES 35 AND 50 CENTS.—Tickets on sale at Hankins' Drug Store, March 2. Open at 7:30. Court called at 8. 75-77-79-81

ORMOND-ON-THE-HALIFAX

ORMOND is 5 miles west of Daytona, on the west side of the Halifax River. The location is perfect for a permanent home and is ideal for a winter home. A fine bridge connects Ormond with Daytona Beach. Many fine homes are maintained on either side of the river, most of them surrounded by sub-tropical flora and shrubbery, besides citrus fruit trees.

Ormond has many attractions—excellent automobile, good fishing, safe boating, and many pleasant drives.

At Ormond Beach is located the large hotel Ormond, and a lesser sister, the Ormond Inn. The former occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the road Atlantic.

Besides the broad, smooth beach there are many drives for carriages and automobiles around Ormond—drives to and through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to the ancient Causeway built by slaves of planters of long ago, and drives to the plantations of notable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of the most interesting of these plantations is at the headwaters of the Halifax and known as Moundgrove. It is one of the finest orange groves on the East Coast of Florida and is amid very pretty surroundings. Moundgrove is on the Daytona-Saint Augustine road.

OF CLAIMS CROWDED.

Squabbles Over Various
Positions Being Throated
King George Is Crowned.
White Red and Glove
Subjected to Scrutiny.

King George of England de-
sires to adopt ancient customs at his
coronation there will be some
and medieval ceremonies on
the occasion. A nobleman of the
of Heydon, in Essex, is entitled
to bear a towel for the
when the monarch washes for the
first time. The holder of the manor of
in Surrey, is charged with
the duty of serving a mess of gerout
to the sovereign before
the formalities of the ban-
quet are begun.

The chief butler of England, a post
of honor in spite of the title,
according to a well established
right to call upon the lord
and twelve citizens of London
each aid as is necessary on the
day.

Competition Is Great.

There were two distinguished claim-
ants for the post of chief butler at the
coronation of King Edward in 1902.
One was the Duke of Norfolk and the
other Lord Mowbray and Stourton. In
settling their claims to the office
men quoted the records of pre-
vious coronations for several centuries
producing musty court documents
of great antiquity, which were sub-
mitted in proof of the righteousness of
their contentions. The Duke of Nor-
folk is the premier duke of England
and the most prominent Roman Catho-
lic. He is also very wealthy.

The court of claims, which has to do
with the settlement of procedure at
coronation function, is now in ses-
sion. It is guided in its decisions by
precedent. The court dates
back to the reign of Richard II, 1377.
John Gaunt, duke of Lancaster,
and high steward, kept his court
at Whitehall. Beginning with the cor-
onation of Henry VIII., commissioners
were appointed to decide the questions,
and these commissioners were later
replaced by the court of claims. The
record of the court is the coronation
rolls, on which the claims are set
down in some detail.

At the coronation of King Edward
there were three claimants for the hon-
or of carrying the great spurs. The
court refused to allow the claims of
any of the three, leaving it open for
the present court to restore the right
to a claimant. Carrying the spurs
was more in the days when English
kings were fighters than it does now.
The king has plenty of spurs, but they
are without the glamour which comes
from victories in the field.

Many Rival Claimants.

Most of the claims of right were al-
ready subject to the king's approval.
In some cases there were rival
claimants. For instance, both the
Earl of Newcastle and the Earl of
Newbury claimed the right of sup-
porting the king's right
and supporting his majesty's
arm while he is holding the scepter,
and the first named claim was al-
ready.

Three claims were made to the office
of hereditary standard bearer of Scot-
land, the petitioners being the Earl of
Aberdale, Henry Scrymgeour Wed-
derburn and the Rev. R. C. Wedder-
burn. Mr. Wedderburn's claim was al-
ready, and he was commanded to at-
tend the coronation and did so. The
Earl of Aberdale, however, chal-
lenged the decision by bringing an ac-
tion against the successful petitioner
in the court of session, Scotland. He
lost there, but on appeal to the
House of Lords the question was decid-
ed against him.

Another interesting claim was that
of the Walker trustees to exercise the
right of usher of the white rod, which
was bequeathed by Sir Patrick Walker,
former holder, and held by trustees
appointed by act of parliament.
They were allowed to be present by
the court, but they were not to be ap-
proved by his majesty.
The revival of an ancient privi-
lege was seen in the decision by which
the barons of the Cinque Ports were
allowed to carry a canopy over the
king should his majesty be pleased to
use a canopy.

BIG ATTRACTION OFFERED BY AVIATION EXHIBITIONS.

MANY PEOPLE FROM ALL PARTS
OF THE STATE ARE EXPECTED
TO COME HERE LAST WEEK IN
MARCH.

Sensational aeroplane flights are
promised at Daytona, March 28, 29,
30, when J. A. D. McCurdy, one of
America's pioneer aviators, will make
a series of flights in his Curtiss bi-
plane.

Aviator McCurdy will give a series
of five flights in the two days, two
of the most interesting of which will
be a race with the fastest automobile
on the famous Daytona beach, noted
as the fastest automobile speedway
in the world, and a flight at high al-
titude from the beach over the towns
of Seabreeze, Daytona Beach, the
broad Halifax river and the city of
Daytona.

The series of flights is being ar-
ranged by the Hotel Men's Associa-
tion of Daytona and the Daytona
Board of Trade, which are extending
a cordial invitation to all persons to
visit Daytona, the prettiest winter
resort in the world, at that time to
witness the exhibitions. There will
be no charge to witness the aviation
exhibitions and welcome signs will be
hung everywhere about the city.

In signing the contract for a series
of exhibition flights the Daytona peo-
ple stipulated that the services of Mc-
Curdy should be given because he
has had a longer experience in hand-
ling flying machines than any other
person now in the business, with the
exception of the two Wright broth-
ers and Glenn H. Curtiss himself.
McCurdy was one of the first men to
make a public flight in the United
States and the first man to fly an
aeroplane in Canada, where he still
holds the records for distance and
altitude.

McCurdy's recent attempted over-
the-sea flight from Key West to Ha-
vana has made him the most talked-
of aviator in the world at the present
time. His most important work was
undoubtedly his wireless experimen-
ts carried on with H. M. Horton, a wire-
less expert, and McCurdy has the dis-
tinction of having sent the first wire-
less message ever sent from an aero-
plane in flight.

The exhibitions at Daytona the last
week in March will give the people of
this section a splendid opportunity to
see this famous aviator in actual fly-
ing feats, to witness the fast auto-
mobile race on the most famous beach
in the world and visit what is ac-
knowledgeed to be the prettiest winter
resort in the country.

OPEN AIR EXERCISE.

Always a Factor in the Building Up of
a Man.

An athlete is like an aeronaut—safe
enough while going, but in danger the
moment he stops, especially if he stops
suddenly.

If the first great danger of athletics
for the professional or business man,
the brain worker and man of sedentary
habits generally is not getting enough
of them the record is like unto it—
stopping them too soon. No little of
the bad after effects so frequently
ascribed to athletics in college and
school life is really due to their sud-
den discontinuance after graduation.

The building of man is never fin-
ished until he is dead. His life is all
in one piece, and what is good for him
at one stage of his existence is, muta-
tis mutandis, good for him in all.
While man's mere stature and gross
weight and even "horsepower" may
have attained their maximum by
twenty-two or twenty-three, the effi-
ciency of both his mind and body for
his particular life work ought to and
under most circumstances does go on
steadily increasing until he is fifty,
fifty-five and even sixty years of age.
And the same health giving agency—
exercise in the open air—which has
been the very life secret of his struc-
tural growth and development is equal-
ly indispensable to his further func-
tional development and growth in effi-
ciency. We not merely limit our
growth, but actually shorten our lives,
by taking it for granted that we have
reached our limit at a certain age or
stage and may therefore drop the
means of further progress—play in the
open air. When we stop playing we
stop growing.—Dr. Woods Hutchinson
in Outing.

A HIGHER STANDARD OF MORAL-
ITY PREVAILS today in both public
and private life than ever before in the
history of the country.

Abuse of the power of political organizations
in the past has resulted in a POPULAR DIS-
TRUST of them and of those in authority in
them, particularly of those wielding their cen-
tralized power to such an extent as to earn the
characterization of bosses.

This distrust has produced a demand for a
more DIRECT PARTICIPATION by all the people not only in
party management, but in legislation, and a MORE IMMEDIATE
CONTROL over the administrative acts of executive officers and even
of the conduct of the judges.

THESE VARIOUS TENDENCIES GIVE RISE TO THE INQUIRY
WHETHER THERE IS NOT DANGER THAT THE MOVEMENT TO-
WARD BETTER GOVERNMENT MAY NOT IGNORE THE CONSTITU-
TIONAL CHANNEL INTO WHICH IT SHOULD BE DIRECTED AND
THROUGH WHICH IT MAY ACCOMPLISH ITS LAUDABLE AIMS

Do Politics Enter Your Banking?

Sometimes a man's strong political inclination affects his general affairs but we wish to announce that this bank is independent and free from "party politics." It is non-sectarian, non-denominational and non-caste—the same lines are drawn and same rules apply to all.

This bank is not owned by one man or dominated by any faction. A large number of careful and prudent directors have supervision of its affairs. You will be accorded courteous and liberal treatment if you are one of its customers.

ANCIENT CITY THEATER

HAS CHANGED HANDS.

ST. AUGUSTINE, March 1 — Announcement has just been made of the sale of the three years' lease of the Jefferson theater held by Johnny Ray to E. B. Genover of the Ophelum theater. The transfer of the lease becomes effective Sunday. The news of the business deal will be received with much interest and as a distinct surprise. Manager Ray has fitted the Jefferson up into one of the prettiest and most modernly equipped playhouses in the country and has provided splendid entertainment throughout the winter for the people of St. Augustine.

\$5500 buys a furnished beach street residence; 8 rooms and bath; modern improvements; lot 50 by about 290 feet. Address A. B., care Daily News.

SNOW BALL PARTY AT

ST. MARY'S GUILD HALL.

ENTERTAINMENT BY THE L.A.

DIES OF ST. MARY'S GUILD

SHROVE TUESDAY WELL PAT-

RONIZED.

The entertainment given Tuesday afternoon and evening at St. Mary's Guild hall, by the ladies of St. Mary's Guild for the benefit of the guild, was a very pleasant affair and largely patronized, especially in the afternoon.

There were four refreshment tables and a fancy work table, the latter bright with fancy articles of all description. In the afternoon ice cream and cake and tea were served, while in the evening delicious pancakes and maple syrup were supplied to order.

The hall was trimmed with the usual bamboo decorations and one of the principal features of the entertainment was a handsome clump of bamboo, near the entrance of the hall, from which was suspended numbers of snow balls. These snow balls were formed of cotton and their unusual weight was due to the candy contained in the center of each ball. The snow balls were very popular and found a ready sale.

Substitute For Cream

A housekeeper says that a substitute for cream may be made by heating a cup of sweet milk, and when it reaches the boiling point stir into it the yolk of an egg which has been beaten to a cream. When put into the coffee it is said to be of creamy consistency and flavor.

Man and Horse Power.

The working power of an abled-bodied man is about one-tenth that of a horse.

Spindler—Have any of the machines Gearing invented made money? Wheeler—Only the last one, and he's sorry enough now that it did. Spindler—How is that? Wheeler—The machine made counterfeit money.—Chicago News.

NEW AUXILIARY CRUISER

MOORED AT H. R. Y. C. WHARF.

DR. J. B. ROSS' NEW BOAT

LAUNCHED LAST WEEK NOW

RECEIVING THE FINISHING

TOUCHES.

Dr. J. B. Ross' new auxiliary cruiser, which was launched at the foot of Fairview avenue one day last week, is now lying at the Halifax River Yacht Club Wharf to receive the finishing touches and furnishings.

The boat is 33 feet in length by 10 1/2 feet beam and is of three foot draft. She is fitted with a 30 horsepower Ralace engine. She should prove a very comfortable cruising boat, being supplied with modern conveniences and many neat contrivances for economy of space and comfort. She has a good sized, well fitted galley and neat lavatory and toilet and her cabin is fitted with four regular berths and so arranged that two more persons can be accommodated. In addition to her power the boat will be supplied with a main sail and jib.

If the boat comes up to her owner's expectations, he will cruise north with her in the spring, accompanied by his wife.

Insanity. Perhaps the best definition of insanity is that given by Sir William Hamilton, in which it is declared to be "paralysis of the regulating or legislating faculties of the mind."

Christmas In Geography.

It is rather curious that Christmas is geographically associated with two of the dreariest and most inhospitable spots on the surface of the globe. There is a Christmas land near Cape Horn, at the antartic end of America, and there is a Christmas harbor in Kerguelen, the island of desolation, midway between the Cape of Good Hope and Australia. There is a Christmas island in each of three oceans—the Indian, the Atlantic and the Pacific.

Electric Lights.

The first incandescent electric light filaments were made of thread dipped in lampblack and tar and carbonized at a high temperature.
